A secondary teaching qualification[^]. (A person who holds only a secondary teaching qualification must deliver training and conduct assessment under direction)

MUST ALSO

- work under the direction of an appropriately credentialed trainer or assessor
- not make assessment judgements

~ Diploma or higher-level qualification in adult education or vocational education and training means a qualification that satisfies the requirements of the Australian Qualifications Framework at level 5 or higher and has a focus on training and assessing adults and relevance to delivery and assessment of VET and competency-based training and assessment. The qualification does not need to include the words 'adult education' or 'vocational education and training' in the title, however units completed within the qualification need to demonstrate the skills and knowledge required to train adults and teach VET. The academic transcript or record of results for the qualification will provide the evidence to demonstrate this.

[^] Secondary teaching qualification means a credential issued by a higher education provider (as defined in section 5 of the *Tertiary Education Quality and Standards Agency Act 2011*) which would enable the individual to satisfy the academic requirements for registration as a secondary school teacher in accordance with the registration requirements in at least one State or Territory.
