Comments in response to the question: Any other feedback you would like to provide about this session?

- Very regulatory but unfortunately necessary for VET future.
- Quite depressing session to end the conference - should have been better if scheduled first day - but essential and true.
- It was good to have some balance after listening to several ASQA speakers. Peter challenges our regulatory environment and I believe that's healthy and balanced to have.
- The session was informative not all was relevant to my RTO (not CRICOS) but good info.
- Was important but not exciting.
- I walked out of this session. Overall negative presenter. Even if you don't agree with particular changes try and find a positive within it.
