

2024 National VET Conference Presenter Feedback

AI and Assessment

Stuart Rimmington

Conference Feedback

Average star rating from both APP and survey form responses

(Scale: 1: Poor, 2: Fair, 3: Good, 4: Very Good, 5: Excellent)

Your average star rating from responses received:

4.3 / 5 stars

Comments in response to the question: Any other feedback you would like to provide about this session?

- Enlarge PPT font to meet size of room to enable all audience to engage.
- Some useful ideas (eg. setting up a template from prompts), thank you.
- well done, good content.
- Excellent presentation. Stu was a very engaging presenter and I really like how he asked for questions or ideas during the session. Very thought provoking.
- Was really good to learn more about effective AI prompts - there was alot packed into the session and I felt it could have been simpler and slower so we could have time to process and read what was being typed and generated.
- this was a great session which focused quite exclusively on using AI in VET assessments. I found it really useful as we often discuss using AI to support creating resources but haven't had much discussion for how it can be used to support assessment design. The speaker gave assess to a specific GPT as well as a series of prompts designed to support VET assessments, and these were useful and handy tools. I got a lot out of this session.
- Both my trainer David and I enjoyed Stuarts presentation - it was worth going.
- Stuart had IT difficulties, but the content was interesting.
